

Micro Key's **UNsung HERO** Award

With all of our focus on ensuring our software, service and products are exceeding the needs of our customers and guaranteeing their safety and satisfaction. We often forget about the people involved in the process that play a direct role in helping save lives.

That's why we have developed the **Unsung Hero Award**, to recognize these individuals for the vital job that they do.

Judging Criteria: We are asking owners and management to submit one (or more) of their Central Station Operators who have gone above and beyond his/her duties to help someone in a life-threatening situation.

Prize: The winner will receive a free pass for the **2013 Micro Key's Users Conference** in Orlando, FL (March 12-15) to take part in crucial training and networking. Winner will also be presented with a plaque at the conference during the opening session and will be highlighted for their excellent service as well as receive a \$50 Visa gift card.

How to Enter: Simply fill out the application for the employee that you are submitting.

Make sure to add another distinguished recognition to your company and submit your CS operator who has shown the ability to remain calm in dangerous, life-threatening situations to ensure the safety and comfort of your customers.

They truly are the Unsung Hero's of our industry!
